To All Who Can Use Seeds:

We send you this TWENTY-EIGHTH ANNUAL Catalogue of the Best Seeds for your use, hoping you will favor us with your esteemed orders for such Seeds, Plants, and Roots, as you may need in our list. Whether you are an old customer, or a new one, be your order large or small, we will give it prompt and careful attention. We have the largest Mail Order Seed business in the Northwest, and try to fill each order on the day it is received. We have a Deputy Post-Master Clerk, so that the P. O. Department takes the Packages of Seeds from our Seed Store, without the delay of having to go through the Post-Office, but go directly to the Mail Car. We find the Postal service very reliable, but if you should not receive promptly, notify us, so we can find out what has gone wrong. If you do not get them promptly, the chances are that you have forgotten to sign your name, or to put a stamp on your letter.

Our Seeds will save you many Dollars, by reducing the "*High Cost of Living.*" A good Garden will enable you to *live high*, at *low cost*, and reduce your Grocery, and Meat Bills. Also Doctor Bills, as Vegetables and Fruits are healthier than too much meats. The best and only way to have a good Garden, is to use good Seeds. If you have never tried our seeds, ask some of your neighbors who have used them. We promise to keep them as good as, or better than they always have been in the past. We wish it to be distinctly understood, however, that we do not grow all our seeds here ourselves, but such as we do not grow here, we have grown for us by experienced Growers, in such localities as the best seeds can be grown.

With each order for seeds by Packets, Ounces or Quarter Pounds, we will put in a Free Packet, for each 50c of your order, if you will say what kinds will be most acceptable to you. But this does not apply to the Special Offer Collections, nor on pound orders.

Thanking each and every one who helped to send us so many thousand Orders last year, and hoping to hear from you all again, and your neighbors with you. I beg to remain:

Yours Sincerely,

A. G. TILLINGHAST.

(For Instructions for Ordering, see next page, which I hope you will read very carefully.)

HOW TO GET OUR SEEDS

We do not send our seeds C. O. D., nor on Commission, and they are not to be found for sale at the stores. We prefer to deal directly with our customers.

WE SEND SEEDS POSTPAID BY MAIL

at prices named in this list, and guarantee safe arrival to your address. The U. S. Mail places our Seed Store at your door, and we make it very easy for you to get good, fresh seeds to plant. Look over this catalogue carefully and mark with a pencil all that you want. Then make out on the order sheet, or any other paper, a list of all the kinds and quantities that you have selected. BE SURE TO WRITE YOUR NAME AND ADDRESS plainly, enclosing the amount, and we will fill your orders promptly, by return mail, and pay the postage ourselves.

HOW TO SEND MONEY

If the amount is fifty cents or more, send by POST OFFICE MONEY ORDER, drawn on La Conner, Wash., P. O. (in applying for which you can fill out at home, for the postmaster, the government blank application, which we send you with the order sheet), and we recommend this as the best way to send money. But if you are not convenient to money order office, you may send Express Money Order, Bank Check, or by Registered Letter. If the amount is less than fifty cents, you may send Coin or Postage Stamps, securely sealed and plainly addressed, in common letter without registering. Be sure that all Orders and Checks are drawn to the order of A. G. Tillinghast, LaConner, Wash., and all coin should be wrapped with a small piece of cloth or strong paper, or otherwise secured from shaking around loose in the letter, and stamps should be kept dry and carefully folded within the letter or order sheet.

We exercise the greatest care to have all seeds fresh, pure and reliable, and cannot afford to have them otherwise, but there are so many influences, as soil, weather, insects, etc., beyond our control, that we cannot guarantee resultant crops nor be held responsible for more than the amount paid us for seeds. Our past record must be our guarantee for the future. Read the testimony we give on pages 1, 2 and 32, showing that our seeds give great satisfaction in each and every locality in both Eastern and Western Washington. THEY ARE THE VERY BEST SEEDS FOR YOUR USE.

DO NOT DELAY, BUT MAKE OUT YOUR ORDER NOW, while you think of it, and have the seeds on hand when the planting time comes, and have the best garden you ever had.

A. G. TILLINCHAST.

This tool combines, in a single convenient implement, a capital hill-dropping seeder, a continuous row seeder, an admirable single wheel hoe, an excellent furrower, a capital wheel cultivator and a rapid and efficient wheel garden plow.

No. 25 Planet Jr. Combined Hill and Drill Seeder and Double Wheel Hoe, Cultivator and Plow. This new combined machine is intended for gardeners who have large enough acreage in crops for a Double Wheel Hoe to be used to good advantage, and yet prefer not to buy seeders and wheel hoes separately.

No. 11 Planet Jr. Double Wheel Hoe, Cultivator, Plow and Rake. The hoes are the most valuable of all the wheel hoe attachments; are oil tempered and polished. Use the 4-inch for 6, 10 or 12-inch

rows; the 6 inch for rows 12 inches and upwards. The plows are invaluable; use them with points together for opening furrows for manure, seed, etc., then exchange sides for covering; use also for plowing from or towards crops, both sides at once.

No. 6 Planet Jr. Combined Hill and Drill Seeder, Wheel Hoe, Cultivator and Plow. What it will do: It drops all garden seed in hills and sows in drills, in a narrow line, to any exact depth required, covers, rolls down and marks the next row, all at one passage. As a wheel hoe, it hoes, cultivates and plows all garden crops, completing a row at every passage, up to 16 inches in width.

No. 16 Planet Jr. Single Wheel Hoe, Cultivator, Rake and Plow. Handles adjustable in height, frame is steel, convenient and strong with quick change device for exchanging tools without removing nuts.

The new Planet Jr. Catalog is the handsomest, best and most instructive book ever issued on a similar subject. Full of little points that bring profit. Full of true and handsome illustrations. We mail it free to any address on application.
